What is Aavarnas?

“**AAVARNAS** mean creation, ascending and climbing up to the planned progressive prosperity, potency, purity of thought, deed and action. It also means promoting positive thinking, good health and divine environments.

#### **OUR LOGO**

It represents the Damaru- an instrument held in the right hand of Lord Siva embodying the meeting of positive and negative forces, or latent and potent energies, that created this universe. The Damaru also symbolizes the harmonized triangles as embedded in the sriyantra, transmitting the Divine energy. The beating of the Damaru indicates the coming into being the creation of this universe.

#### **What we do in “Aavarnas”?**

Our Mission is to provide an opportunity to earnest individuals and corporate houses, seeking progress in their field of activity and help them improve in all respects, ward off negative energy and Vastu/Fengshui defects in their premises. “Aavarnas” also provide the means and methods to achieve the goal of human life-progressive prosperity and potency through purified environment.

“**AAVARNAS**” have been in the field of Divine energy worship for more than 7 generations and have now come out with open hands to care and share their experience with fellow human beings.

“**AAVARNAS**” have developed pure crystal SRIYANTRA (11 X 11 CMS SIZE) AND MAHA MERU INSIDE PURE CRYSTAL PYRAMID & CUBE, through dedicated research for more than a decade, and have perfected the technique. The pure crystal Sriyantra/Maha Meru is sanctified and energized through the process of mantra-yantra-tantra installation principles that have been prescribed in various scriptures and Sastras. Therefore the Divine power instilled therein are retained life long by the pure crystal Sriyantra/Maha Meru. **THE CRYSTAL SRIYANTRA/MAHA MERU DOES NOT NEED RE-INSTALLATION AS IN THE CASE OF THOSE MADE OF ANY METAL INCLUDING GOLD.**

#### **WHAT IS SRIYANTRA/MAHA MERU?**

Sriyantra/Maha Meru is the mystical construction of cosmos, and have the power of 330 million Mantra-Devathas (subtle-energies) polarized and embedded therein, in the form of 52 Matruka Aksharas (alphabets) which form the base of any Mantra, its attributed Deity, the carriage (Vahana or vehicle on which the Deity sits), the herb or tree to which it belongs and the corresponding body part of the human beings which it controls. Therefore Sriyantra/Maha Meru represents the whole universal energy and the energy embedded in every animate and inanimate objects, meaning the “soul”.

**The SRIYANTRA/MAHA MERU HAVE 43 TRIANGLES**, 22 triangles looking upward representing Siva (the latent energy) and

21 triangles looking downward representing the Sakthi (potent energy), thus interacting and linking the positive and negative energies, male and female energies, and establishing utmost harmony between them. Therefore it is considered to be the best medium for integrating the Divine Energies through interaction without intercourse. There is no body and mind contact, and therefore it is beyond time and distance. It is called “**SAMARSAYA**” meaning “fully integrated . It is therefore capable of removing any cause of disharmony in every part of the human body, environment and family life, if its potency is properly utilized.

As the human being transmits the divine energy, so also the SRIYANTRA/MAHA MERU transmits the Divine Energy, wherever it is installed properly sanctified.

It is important to note that the Sriyantra/Maha Meru is placed, with the central triangle always pointing down or towards the sadhaka (worshipper) In the Meru the central dot is within a triangle and here also any point of the triangle will always face the worshipper. Whatever side the central triangle faces, it becomes south and the top becomes North. If the Sriyantra is placed with the 5 triangles looking down, it becomes the Sakthi Chakra (potent energy) and if it is placed with the 4 triangles looking down, it becomes the Siva Chakra (latent energy). In the case of Maha Meru, it is never placed lying flat down, as it is conical and will always be placed " top up". Therefore they have no sides such as North, South, East or West etc. The Earth's magnetic polarity has little effect on the CRYSTAL SRIYANTRA/MAHAMERU.

The north-east of the Sriyantra/Maha Meru is the place of Agni, the North West Divine (God), the South East - Asura (Demon negative), and the South West Vayu air flow.

Therefore they totally control the flow of energy in the puja room / meditation hall house or office wherever it is placed and brings in all benefits to the user. It corrects the aura of the individual's magnetic field, cleanses the place of unwanted energy, corrects vastu defects increases happiness and contentment and finally helps one to reach the goal of human life. It ushers Spiritual and Material benefits to go hand in hand.

### HOW DO WE SANCTIFY THE SRIYANTRA

The subtle energy in SRIYANTRA/MAHA MERU will not vibrate unless it is properly charged and given the power by the process of transmission of Divine Energy by the competent persons, much like the human body, which cannot vibrate without the soul. Extensive bathing with sanctified water, performing PUJA (worship) charging the Sriyantra and Meru with Divine Mantras prescribed, and finally doing HOMA (havan) in sacrificial fire are all done as prescribed perfectly.

### WHY A MERU INSIDE A PYRAMID/CUBE ?

The angular measurements of the Pyramid correspond to the angles in Sriyantra/Meru. The Pyramids give out bio-energy fields, akin to those found in ancient Sriyantra installed in various temples in India. Temples where the Sriyantra/Meru is installed provide the bio-energy to cure the illness of those who rested there. Therefore a combination of Meru inside Pyramid/Cube was conceived to double the effect of reducing illness, bringing in harmony, prosperity, peace of mind. etc.

### WHY A CRYSTAL SRIYANTRA/MAHA MERU?

The Crystal Sriyantra or Maha Meru when charged and energized as per the prescribed norms lasts a life time. It does not require any puja (worship) or recharging and can be placed anywhere, because it is pure energy and cannot be polluted. They are beyond religion, cast, creed, nationality, and has no boundaries both mundane and eternal. It is important to note that

the Sriyantra/Maha Meru is placed, with the central triangle always pointing down or towards the sadhaka (worshipper) In the Meru the central dot

### HOW THE SRIYANTRA/MAHA MERU IS WORSHIPPED:

No puja (worship) is needed, as it is already sanctified and installed as per prescribed norms. The user can meditate in its presence to gain much benefits.

### SOME PEOPLE SAY THAT THE SRIYANTRA OR MAHA MERU SHOULD NOT BE WORSHIPPED. IS IT TRUE?

Absolutely wrong. The Sriyantra and Maha Meru are Divine subtle energy personified, which has no afflictions of caste, colour, creed, gender, and vibrates pure divine energy only. No harm will befall on any one having or worshipping a Sriyantra or Maha Meru. On the other hand such worshippers, vibrate Divine energy and are able to transmit the same to others for the welfare of the society.

## SANCTIFIED HERBAL POWDER

In order to increase the potency of the Sriyantra/Maha Meru, we have identified the herbs pertaining to each akshara (alphabet) of the Mantras and prepared a powder. This powder can be effectively used mixed with water, boiled and the extract taken after proper filtration and mixing the same with the water in the table top fountain we are offering. Any Mantra the doer knows can also be chanted. It can be also used in Purna Kumbha (water in a vessel used for sanctifying purposes) and also mixed with water while bathing to purify one

The Herbal Powder can also be used for doing havan (homa), ensuring that no cut wood is used. It is to be noted that havan should be done only with fallen twigs of certain trees with ghee. The ash thus collected from the havan (homa) can be used by sick people and for other spiritual purposes, as one may deem fit. Using cut wood of any sort is a taboo for doing havan. Only pure ghee and twigs are recommended for doing havan.

## “MANTRAM-YANTRAM-TANTRAM” TABLE TOP WATER FOUNTAIN WITH OR WITHOUT FOGGER'

We have developed an unique handmade designer table top water fountain called 'MANTRAM-YANTRAM-TANTRAM' water fountain, with or without fogger, which has the basic Crystal Maha Meru inside crystal cube or crystal pyramid mounted on the Cryatal ROTATING DISPLAY UNIT, which throws colourful LED lights. This is a very unique piece which will bring all the desired good effects. Fountain with or without Fogger is also available.

The Fogger can be made to emit subtle fragrance of one's liking to make the atmosphere around suitable for puja, meditation or business activities. Essential oils are mood elevators and each molecule of essential oil is absorbed through the nasal membranes and can, for instance relax the nervous system, which makes you more alert or change your mood. Inhaling a relaxing smell causes an immediate reduction in blood pressure and slows heartbeat. The emission will enhance the feeling of joy, relaxation and bring in the mood to meditate. “Meditation is getting” whereas “Prayer is begging”, as every one knows.

You can add droplets of water soluble essential oils to your liking – like Chamomile (for sleeplessness), Eucalyptus (for chest and nasal congestion), Frankincense (for depression and anxiety), Myth (for sore throat, coughs), Peppermint (for energy, concentration) etc. You an also add other essences which are invigorating like Swag (Indian perfume), Jasmine, Sandalwood etc. You can change the essential oils every week for varieties sake.

**For best results always use distilled water to fill up the tank upto the marked position.**

**Best oils** for room vaporizers – Bergamot (uplifting, refreshing, deodorizing) Eucalyptus (mental alertness), Geranium (energizing yet relaxing), Jasmine (euphoria, confidence), Lavender (tension, tired nerves, to kill airborne germs), Mandarin (sleeplessness, calming), Neroli (soothing, sensual), Peppermint (energy, alertness, to remove smell and cigarette smoke), Sandalwood (relaxing, romantic) and Ylang\_Ylang (hypnotic, sensually uplifting), Lemon (air freshener) etc.

If you are prone to allergies and sensitive skin, it is advisable to use all essential oils in the lowest recommended dilution and do not use these directly on the skin.

The Fountain can be placed in reception Halls, Executive Rooms, Cash Rooms, Puja rooms including Bed Rooms, which the user considers fit and convenient.

The Fountain will not get polluted by any negative energy. The Fountain with Fogger is ideal to be placed in Computer Rooms, to mitigate the ill effects of Static Energy.

The Fountain – several designs are proposed to be made available with Crystal Maha Meru inside Crystal Cube or inside Crystal Pyramid. T this several types of replicas of God and Goddesses, Family Deity, Gurus etc., could be added at customer request, which will go well with the fountain and the purpose for which they are used, as per spiritual dictums (Please see our website [“www.aavarnas.com”](http://www.aavarnas.com) to choose the idols of your choice.

We also offer Fountain made with Brass or Copper – 22 carat gold plated with gold plated idols of one's choice with Pure Crystal Maha Meru inside Cube or Pyramid.

Remember where there is God there is fragrance and let every one enjoy the presence of the Divine Energy within and without through the Divine Fragrance emitted by our Fountain with Fogger.

#### **CRYSTAL SRIYANTRA OR MAHA MERU INSIDE CRYSTAL PLATE WITH L.E.D. LIGHTS :**
